

From strength to strength

The Pavey Group celebrates three years of ongoing success in Exeter

Insurance and Financial Services Company Pavey Group celebrate their three year anniversary in Exeter Office with new appointments and an increasing workforce.

Established for over 35 years, Pavey Group is an independent insurance broker providing commercial and personal insurance and independent financial advice from offices in Exeter, Teignmouth, Torquay and Totnes.

“...strong company values of delivering on the promise of a ‘customer-focused’ quality service”

Following the opening of the Exeter office in August 2005, when the group were appointed as the insurance brokers to the National Trust throughout England, Wales and Northern Ireland, things have continued to go from strength to strength with an expanding broad-ranging client base and a 15 strong team now serving the Exeter business.

Of course, success like this never just happens by chance and Pavey Group recognise that this continued growth originates from its employees and the strong company values of delivering

on the promise of a ‘customer-focused’ quality service. This strong foundation of values is at the very heart of the Pavey Group business, supported by the ongoing investment and development of each and every employee.

Team working and professional training is high on the agenda, recognised and rewarded by IIP accreditation and an excellent re-assessment report that makes for impressive reading. What’s more, with less than five per cent staff turnover in what’s understood to be a highly competitive marketplace, it’s clear to see that Pavey Group really is a great place to work.

“For three years now in Exeter we have continued to expand our client base and attract high quality colleagues” says Paul Smale, Director.

“Our unique company culture and ethics remain of paramount importance to us. We are grateful to and appreciative of our colleagues and clients for their continued support” adds fellow Director, Jonathan Cox.

Joining the successful Pavey Group team are two industry professionals.

Recently appointed Rob Rees, who brings 25 years of experience in the Financial Services Industry, comments “My joining Pavey Group illustrates

the firms continued intention to further extend the range of advice available in the Exeter office.” As an independent financial adviser, Rob offers advice on long term financial planning areas such as pensions, investments, protection and savings.

Helen Jones, who joins this month, has worked in the Insurance Industry in

Exeter for 21 years. Helen says “Pavey Group have an excellent reputation in the industry and I am delighted to be joining them”.

These appointments position the office with the perfect infrastructure, people and skills for more of the sustained growth that they’ve come to enjoy. This mix of motivated professionals, satisfied customers and a thriving regional business indicate a really bright future for the Pavey Group as a truly independent and forward thinking insurance broking business. □
